Braille House General Trading has been founded in 1992. The foundation has a regional Headquarters in Dubai and its activities are focused on providing special educational and learning means for blind people.

In 1995, Braille House expanded its prospects by developing its activities to include all educational and learning means. The foundation provides all schools and educational institutions with top – quality, durable and standard educational

means. This includes importing top – quality educational furniture made by largest German and European companies. These educational and learning tools are committed to

advanced standards in this domain. In line with our quality services, Braille House has been using these tools in many of its projects inside and outside the UAE.
