We, Nippon Telesoft Co., Ltd. are developing and selling the line of products employing the latest technologies, besides developing computer software. In particular, The Braille Printers that support Visually Challenged People have many unique characteristics and we are proud of their best quality functions in the world.

Our Braille Printers operate extremely quietly when printing and also have the remarkable function that print Braille and Ink characters simultaneously. Taking full advantage of this function, they are widely used in the schools and public organizations.

Seika Braille Display series are light and compact to carry and they support all kind of screen readers. Visit our booth to discover how our innovative products can help Visually Impaired people. We are looking forward to hearing from you.
