Knowledge Horizon Libraries & Information Center Services

Knowledge Horizon Libraries established 2008, based in Sharjah – UAE to help libraries meet the rapidly changing sociological and technological changes in their community through design and product. Knowledge Horizon provides product options, quotes and installation services to those that have specific needs.

Knowledge Horizon library products offer unique solutions which can transform your library to a user-friendly environment and Library products are developed for the use in variable libraries.

Knowledge Horizon is Accessibility Company, it is dedicated to innovate, create, and introduce new technological concepts that serve as assistive solutions for disabled people.

Products: Offers an extended range of products for blind and visually-impaired people. TV magnifiers, magnifying glasses, reading machines, screen-enlarger software, voice synthesis, Braille equipments.
